

Electronic Ticketing for Sanitation Departments

NOVWorks™, Mobizent's mobile ticketing application, provides Sanitation Departments the ability to issue Notices of Violations (NOVs) efficiently, effectively while eliminating errors and entry duplication.

NOVWorks™, is a comprehensive Sanitation based ticketing Software for Violation issuance and warnings. to companies, properties and people. Designed to run on any windows based Mobile Device, NOVWorks™ provides highly sophisticated modules that intelligently work together to allow Sanitation Agents to complete error free violations in the least amount of time. In addition to our mobile framework, NOVWorks™ also has a comprehensive back-office system that easily and seamlessly integrates into Department's databases, Court Systems and record systems.

features like capturing GPS co-ordinates for Location address, photo capture, Incident sketch drawin and Voice Recording, Mobizent's famed "Make-Similar" logic allows officers using NOVWorks™ to complete and issue a violation within 90 seconds.

NOVWorks™ ensures that the entire process is streamlined, from the initial entry of the information through the reporting and data collection analysis, to ensure that Sanitation Departments save time and money. NOVWorks™ "Investigative Search" feature provides data analysis and data visualization capabilities to investigative officers during any crime investigation, such as illegal dumping.

NOVWorks™ also provides a complete electronic violation record that not only provides the standard required fields, but also provides a back-office solution to allow officers to manage the ticket data. Our back-office solution provides interfaces to the local database, the courts, mapping of ticketing data, searching of the ticket database and many other critical applications.

The screenshot shows two overlapping forms. The top form is titled 'Subject' and includes fields for 'Type' (set to 'Driver'), 'SSN', 'ID#', 'Last Name', 'First Name', and 'Middle Name'. The bottom form is titled 'Vehicle' and includes fields for 'Plate', 'VIN', 'State' (set to 'CA'), 'Body Style', 'Color', 'Make', 'Model', 'Year', 'Insurance Comp' (set to 'Other'), 'Policy#', and checkboxes for 'Commercial Vehicle', 'Hazardous', and 'Owner Responsibility'. There is also an 'Owner' button.

NOVWorks™ improves data collection, prints an accurate violation, and eliminates the need to re-enter data into additional systems.

NOVWorks™ is a cost-effective solution that reduces the amount of time spent by allowing agents to scan/swipe Drivers License to capture all the subject information, and select relevant information from pre-populated list of violations. In addition, NOVWorks™ also provides latest technological

Features of NOVWorks:

- Electronic scan/swipe of license
- Pre-defined lists and options
- Printing to portable printer
- Advanced security features (biometric, sign. validation)
- Wireless or Direct Synchronization
- Customizable to Department requirements

Benefits of NOVWorks:

- Simplifies and streamlines ticket writing
- Reduces paperwork
- Reduces Carbon Footprint
- Ensures data integrity
- Enhances data analysis and visualization
- Increases officer productivity
- Integrates with Department network
- Increase revenue
